

Name of the Student:

Name of the Instructor:

Course:

27th April 2017.

Vice President Samaritan's club

Why are you qualified for this position?

My personal career path as a leader is tremendous. I keep being elected for various leadership positions in clubs because the people understand that my desire to lead is inborn. It is more of servant service other than status. My ability to rule over my emotions, understand and manage the emotions of the other people has made me a better leader. Therefore, it is an opportunity to share my experiences and offer the best leadership as Vice President of Samaritan's club.

What other activities are you involved in, in or outside of school?

Outside of school, I have engaged in many general and leadership positions. As a group, we have been visiting other school and holding talks with them. They have been a small guide to success. We learned that people could only improve when they understand how and why other parties are doing. The students we have visited feel challenged, and it acts as a motivation to them to improve on their results. We have received many letters thanking us for "raising the animal in them." They are confident that after the eye-opening interactive talks, they are on the path to success.

What other clubs do you hold positions in?

Currently, I hold the position of Secretary-General at the Mathematics Club. It has been a great

opportunity to know people and I understood their talent. People are born natural mathematicians, but some of the best I have met have learned the art of calculations through developing the passion for the subject.

Why do you want to be an officer of the OHHS Samaritans club?

I bring much experience having worked as vice president in a smaller Environmental club in my school. It will be an opportunity to serve in a better and higher way. The chance to be Vice President will build my career prospects, but largely, it will give me an opportunity to share with the members the experience I have as a leader. It will give them a learning point and improve their lives.
